

March 29, 1912.

U. S. Surveyor General,
Boise, Idaho.

My dear Mr. Utter:

In your note of November 2nd, 1911, you stated that as soon as your field men returned to Boise you would take up the matter of the names of certain portions of the Continental Divide between Idaho and Montana, inquired about by me in my letter of October 19. I have not yet heard from you and think perhaps the whole matter has slipped your mind. Will you not kindly take the matter up and advise me, both as to your own views and those of others whom you may interview, at as early a date as possible. The U. S. Geographic Board wishes to get this question disposed of as soon as practicable.

Very respectfully,

Chief Clerk.
